

Proposal Olivia Hendrickx Research Fund

Collaborative project

The OHRF will exceptionally fund collaborative projects in pediatric oncology. The projects should aim at the improvement of treatment and care of pediatric cancer patient. The translation of scientific knowledge to clinical practice is the primary aim. Project should involve at least three Pediatric Oncology Centers and the collaboration should be essential to reach its goals.

Title of the project

Dutch title

Including a Dutch summary in layman's terms

Max. ½ page

Project:

Describe the objectives of the research

Describe the envisaged research and the research hypothesis. How does it fit within the mission of the OHRF? What impact could it have, whether and how can it contribute to the improvement of treatment and care of pediatric cancer patients.

Max. 2 pages

Describe the consortium

- Composition of the consortium.
- Complementarity and synergy of the consortium.
- Are all relevant parties involved?

Describe the methodology of your research and workplan

Show where the proposed methodology is according to the state of the art and where it is novel.

Describe the organization of the consortium

Enclose risks that might endanger reaching project objectives and the contingency plans

Max. 2 pages

Bibliographical references that are relevant for your research proposal.
